'Utility', any person, firm, corporation or municipal lighting plant that owns or controls or shares ownership or control of poles, ducts, conduits or rights of way used or useful, in whole or in part, for supporting or enclosing wires or cables for the transmission of intelligence by telegraph, telephone or television or for the transmission of electricity for light, heat or power; provided, however, that municipal lighting plants shall be exempted from all the provisions of this section for a one year period.

'Usable space', the total space which would be available for attachments, without regard to attachments previously made, (i) upon a pole above the lowest permissible point of attachment of a wire or cable upon such pole which will result in compliance with any applicable law, regulation or electrical safety code or (ii) within any telegraph or telephone duct or conduit.

'Wireless attachment', any device, apparatus, appliance or equipment used or useful in providing wireless telecommunications services, including any associated wire or cable, installed upon any pole owned or controlled, in whole or in part, by one or more utilities.

'Wireless provider', any person, firm or corporation other than a utility, which provides telecommunications service.

A utility shall provide a wireless provider with nondiscriminatory access to any pole or right-of-way used or useful, in whole or in part, owned or controlled by it for the purposes described in this section. Notwithstanding this obligation, a utility may deny a wireless provider access to its poles, ducts, conduits, or rights-of-way, on a nondiscriminatory basis only if the utility can substantiate that the wireless provider refuses to incorporate into the terms and conditions of an agreement for access to such poles, conduits or right-of-ways reasonable terms concerning, safety, reliability and generally applicable engineering standards, but shall otherwise execute an agreement with

the wireless provider in consideration at or below the maximum rate set by the department. Subject to the requirement of the section, no wireless attachments shall be made to the poles, towers, piers, abutments, conduits, manholes, and other fixtures necessary to sustain, protect, or operate the wires or cables of any lines used principally for the supply of electricity in bulk, without the written consent of the utility.

The department shall have authority to regulate the maximum rates applicable to wireless attachments placed on poles, and in so doing shall be authorized to consider, and shall consider, the interest of subscribers of wireless communications services as well as the interest of consumers of utility services. In any case in which the utility and wireless provider fail to agree upon rates of placing wireless attachments on the utility's poles, upon petition of any wireless provider said department shall determine and enforce reasonable rates, for the use of the poles addressed by said petition by the petitioning wireless provider.

The department, pursuant to the provisions of this section, shall determine a just and reasonable maximum rate for the use of poles of a utility for wireless attachments of poles by a wireless provider by assuring the utility recovery of not less than the additional costs of making provision for wireless attachments nor more than the proportional capital and operating expenses of the utility attributable to that portion of the pole occupied by the attachment. Such portion shall be computed by determining the percentage of the total usable space on a pole that is occupied by the attachment. The department is hereby authorized and directed to promulgate rules or regulations for the administration and enforcement of this section.

UNCORRECTED PROOF

Notwithstanding section 2 of chapter 70 of the General Laws or any other general or special law to the contrary, except for section 12B of chapter 76 and section 89 of chapter 71 of the General Laws, for fiscal year 2007 the total amounts to be distributed and paid to each city and town from item 7061-0008 of section 2 shall be as set forth in the following lists. The specified amounts to be distributed from said item 7061-0008 of said section 2 shall be in full satisfaction of the amounts due under chapter 70 of the General Laws, in this section called chapter 70 aid. For fiscal year 2007, the foundation budget for each district shall be calculated under the provisions of section 2 of chapter 70 of the General Laws; provided, the foundation inflation index shall not be capped during fiscal year 2007; and provided further, that no school district shall have a wage adjustment factor less than one. Preliminary local contribution shall be the municipality's fiscal year 2006 minimum required local contribution increased or decreased by the municipal revenue growth factor. Target local contribution shall be defined and calculated as in said house bill 2; provided, that maximum local contribution shall be 85 percent of a municipality's foundation budget. Minimum required local contribution shall be the preliminary local contribution less 20 percent of the excess effort amount, if any, as defined and calculated in said house bill 2. For fiscal year 2007, the department shall calculate a down payment aid amount as follows. The department shall calculate the additional foundation aid that would be necessary if minimum required local contribution were calculated by reducing preliminary local contribution by the full amount of the excess effort amount as calculated in said house 2, and shall add an additional increment to the district's foundation aid such that every district receives not less than 20% of said amount as down payment aid, so-called. The department shall add a further amount of additional aid such that

Notwithstanding the provisions of section 6 of chapter 70 of the General Laws or any other general or special law to the contrary, the Commissioner of Education shall reduce the fiscal year 2006 net school spending requirement for any school district whose requirement would otherwise exceed 150 percent of its foundation budget. If there is a conflict between the language of this section and the distribution listed below, the distribution below shall control.

The department shall not consider health care costs for retired teachers to be part of net school spending for any district in which such costs were not considered part of net school spending in fiscal year 1994.

No payments to cities, towns, or counties maintaining an agricultural school pursuant to this section shall be made after November 30 of the fiscal year by the state treasurer until he receives certification from the commissioner of revenue of the commissioner's acceptance of the prior fiscal year's annual financial reports submitted pursuant to section 43 of chapter 44 of the General Laws. The state treasurer shall make advance payments for some or all of periodic local reimbursement or assistance programs to any city, town, regional school district, or independent agricultural and technical school that demonstrates an emergency cash shortfall, as certified by the commissioner of revenue and approved by the secretary of administration and finance, pursuant to guidelines established by the secretary.
